(B) ANSUL 厨房烟罩灭火系统

项品 Item	型号 Model	样式 Description	尺寸 Dimension (mm)	数量 Qty	单价	合计	Total
			(L)*(W)*(H)		Unit Price	Price	Price
for CLK-48	ANSUL PREPIPE	浩盾在厂预先安装预埋安素(ANSUL)管及配件 · 外漏的管子是不锈钢 · 配件包括烟罩/排风口/设备保护喷头 · 喷头是搭配不锈钢防帽; 具体数量与位置需依据图纸 · 预埋还包括了熔断片 · 而熔断片的温度也必须根据安素设计要求/设备与图纸匹配 · Halton pre-installed the ANSUL pipe and components. All the exposed pipe will be stainless steel. All the exhaust collar, plenum and nozzle will be pre-installed. The Nozzle installation quantity and distance will be according to the drawing submission. It will includes the fusible link, and the type of fusible link be determined by ANSUL design guidelines, cooking appliances and drawing's submission.	总烟罩长度5000mm	1	USD 3,291.00	USD	3,291.00
总价 Total Price						USD	3,291.00

TOTAL AMOUNT :	USD	25,436.00
----------------	-----	-----------

备注 Remark:
此价格不包含任何安装材料, 设备安装、调试和其他以上未标明的项目。
The price does NOT include any installation material, site installation, testing, commissioning and others that not specified above.
所有浩盾烟罩是经过按照 ASTM 1704 标准, 对性能进行了独立测试。排风量基于 ASTM 性能和有效热负荷的计算方法。
All the Halton Products has been in Performance tested independently in accordance with the ASTM 1704 standard and heat load exhaust airflow rates calculation method.
For ANSUL 3/8" 不锈钢管 SCH 40 pipe is stainless steel.
每套系统匹配一组烟罩System price only dedicate for each module.
安装另算Installation price will be optional for references
1) 价格不包括煤气阀Installation of Gas valve and interlocking work by others
2) 安装是预算系统与烟罩的十米距离 超过十米必须另外结算.Installation piping material provided for distance max of 10m between the last hood and ansul panel. Any relocation of panels further then this, will result in shortage of pipes.
Additional charges will be applied to client for this extra materials.
此价格不包含任何调试和其他以上未标明的项目。 The price does NOT include any testing, commissioning and othersthat not specified above.
The prices of installation at site are only inclode 2 times travelling with 2 Halton/ANSUL installer.

M.A.R.V.E.L.®系统是技术创新的精华。M.A.R.V.E.L., in combination with Capture Jet® technology, offers the lowest levels of energy consumption currently possible and provides complete comfort for users.
它是首个真正的智能化、响应式和完全灵活的按需通风系统。Rapid, fine-tuned and adapted to the requirements of the equipment
适合排油烟罩和通风天花烟罩, 它的主要优势是可以将排风量减少高达 64%。
Enables you to decrease these flow rates up to about 64%.
请联系浩盾关于MARVEL 这系统的讯息。
Kindly Contact Halton if you need further information for M.A.R.V.E.L.
